ANNUAL FINANCIAL REPORT

FISCAL YEAR 2023

September 29, 2023

Honorable Greg Abbott, Governor Honorable Glenn Hegar, Texas Comptroller John McGinty, Director, Legislative Budget Board Lisa Collier, State Auditor

Ladies and Gentlemen:

We are pleased to submit the annual financial report of the Texas Board of Professional Engineers and Land Surveyors (460) for the year ended August 31, 2023, in compliance with Texas Government Code Annotated, Section 2101.011, and in accordance with the requirements established by the Texas Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) 34, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the state auditor as part of the audit of the State of Texas *Comprehensive Annual Financial Report* (CAFR); therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact Jeff Mutscher at 512-440-3063.

Sincerely,

Lance Kinney, Ph.D., P.E.

Executive Director

Leky

TEXAS BOARD OF PROFESSIONAL ENGINEERS AND LAND SURVEYORS (460)

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Entity

The Texas Board of Professional Engineers and Land Surveyors (the Board) is a Self-Directed Semi-Independent agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Reporting Requirements for State Agencies.

The Professional Engineers Board was created in 1937, and merged with the Professional Land Surveyors Board in 2019 to administer provisions of the Texas Engineering Practice Act (Occupations Code 1001) and the Surveying Practice Act (Occupations Code 1071). The primary functions of the Board are to examine and license applicants as professional engineers and professional land surveyors. The Board is required to enforce the rules and regulations applicable to the practices of engineering and land surveying as established and defined by the Act in order to protect the public.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No. 34, Basic Financial Statements- and Management's Discussion and Analysis- for State and Local Governments, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Component Units

No component units have been identified which should have been blended into an appropriated fund, discrete presentation or note disclosure.

Fund Structure

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

Governmental Fund Types

General Fund

The General Fund is used to account for all financial resources of the state except those required to be accounted for in another fund. The Board of Professional Engineers Local Operating Fund (Fund 1011) is restricted to expenditures by Agency 460. It derives its financing from license fees, penalty fees, and interest revenues.

Capital Asset Adjustment Fund Type

The Capital Asset Adjustment Fund (Fund 9998) will be used to convert governmental fund type capital assets from modified accrual to full accrual.

Long-Term Liabilities Adjustment Fund Type

The Long-Term Liabilities Adjustment Fund (Fund 9997) will be used to convert governmental fund type debt from modified accrual to full accrual.

Fiduciary Fund Types

Fiduciary funds account for assets held by the state in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. When assets are held under the terms of a formal trust agreement, either a pension trust fund, or a private purpose trust fund is used.

Agency Fund

Child Support Employee Deduct (Fund 0807) and Texasaver Hold-Transmit 401K (Fund 0942) are used to account for assets the government holds on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

Basis of Accounting

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Government fund types that build the fund financial statements are accounted for using the modified accrual method basis of accounting. Under the modified accrual method, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year end. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Governmental adjustment fund types that will build the government-wide financial statements are accounted for using the full accrual basis of accounting. This includes capital assets, accumulated depreciation, unpaid Employee Compensable Leave, the unmatured debt service (principal and interest) on general long-term liabilities, long-term capital leases, and long-term claims and judgments and full accrual revenues and expenses. The activity will be recognized in these fund types.

Budget and Budgetary Accounting

The budget is prepared annually using generally accepted accounting principles. The budget is reviewed and approved by the agency's governing Board notwithstanding any other provisions of law, including the General Appropriations Act. No costs are incurred by the General Revenue fund. The agency is responsible for all costs, both direct and indirect.

Assets, Liabilities, and Fund Equity

Assets:

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

Inventories and Prepaid Items

Inventories are consumable inventories. Inventories are valued at cost, generally utilizing the last-in, first-out method. The consumption method of accounting is used to account for inventories and prepaid items that appear in the governmental fund types. The cost of these items is expensed when the items are consumed.

Capital Assets

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year should be capitalized, with the exception of software. The capitalization threshold for purchased software is \$100,000. These assets are capitalized at cost or, if any purchased at appraised fair value, as of the date of acquisition. Purchases of assets by governmental funds

are reported as expenditures. Depreciation is reported on all "exhaustible" assets. Assets are depreciated over the estimated useful life of the asset using the straight-line method. Donated assets are reported at fair value on the acquisition date.

Current Receivables - Other

Other receivables include year-end revenue accruals. This account can appear in governmental and proprietary fund types.

Liabilities:

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Current Payables - Other

Payables are the accrual at year-end of expenditure transactions. Payables may be included in either the governmental or proprietary fund types.

Other Liabilities

Other Liabilities represents funds due to the State's General Revenue Fund for professional fees collected.

Employees' Compensable Leave

Employees' Compensable Leave balances represent the liability that becomes "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the statement of net assets.

Fund Balance/Net Assets:

"Fund balance" is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the governmental fund statements. "Net position" is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the government-wide, proprietary and fiduciary fund statements.

Reservations of Fund Balance

Fund balances for governmental funds are classified as either reserved or unreserved in the fund financial statements. Reservations are legally restricted to a specific future use or not available for expenditure.

Committed

Amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the state's highest level of decision-making authority (the Legislature) are reported as committed fund balance. Those committed amounts cannot be used for any other purpose unless the Legislature removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.

Nonspendable for Inventory

HB 2042 86(R) amended Gov. Code 2101.011(c) removing the value of consumable supplies and postage from Fund Balance. Comptroller's Office made adjusting accounting entries post-AFR FY2019 to remove this amount from Fund Balance.

Invested in Capital Assets, Net Of Related Debt

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

<u>Unrestricted Net Position</u>

Unrestricted net position consists of net resources that do not meet the definition of the two preceding categories. Unrestricted net position often has constraints on resources that are imposed by management but can be removed or modified.

Interfund Transactions and Balances

The agency has the following types of transactions among funds:

(1) Transfers: Legally required transfers that are reported when incurred as "Transfers In" by the recipient fund and as "Transfers Out" by the disbursing fund.

The composition of the agency's Interfund activities and balances are presented in Note 12.

TEXAS BOARD OF PROFESSIONAL ENGINEERS AND LAND SURVEYORS (460)

NOTE 2: CAPITAL ASSETS

A summary of changes in Capital Assets for the year ended August 31, 2023 is presented below:

TEXAS BOARD OF PROFESSIONAL ENGINEERS AND LAND SURVEYORS (460)

NOTE 4: SHORT-TERM DEBT

Not applicable.

NOTE 5: SUMMARY OF LONG TERM LIABILITIES

During the year ended August 31, 2023 the following changes occurred in liabilities.

	Beginning Balance			Ending Balance	Amounts Due	Amounts Due
Governmental Activities	9/1/2022	Additions	Reductions	8/31/23	Within 1 Year	
Employee's Compensable Leave	\$ 476,906.13	\$393,685.99	\$ (407,689.55)	\$ 462,902.57	\$ 270,263.03	\$ 192,639.54
Total Governmental Activities	\$ 476,906.13	\$393,685.99	\$ (407,689.55)	\$ 462,902.57	\$ 270,263.03	\$ 192,639.54

Employees' Compensable Leave

If a state employee has had continuous employment with the state for at least six months, the state employee is entitled to be paid for all unused vacation time accrued in the event of the employee's resignation, dismissal or separation from state employment. Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. This obligation is usually paid from the same funding source(s) from which the employee's salary or wage compensation was paid.

NOTE 6: BONDED INDEBTEDNESS

Not applicable.

NOTE 7: DERIVATIVES

Not applicable.

NOTE 8: LEASES

Not applicable.

TEXAS BOARD OF PROFESSIONAL ENGINEERS AND LAND SURVEYORS (460)

NOTE 9: DEFINED BENEFIT PENSION PLANS AND DEFINED CONTRIBUTION PLAN

Not applicable.

NOTE 10: DEFERRED COMPENSATION

The State of Texas offers a deferred compensation plan to all state employees. This plan is in accordance with Internal Revenue Code Section 457 and permits employees to defer a portion of their salary until future years. All amounts are held in trust by the Employees Retirement System (ERS) Board of Trustees for the exclusive benefit of participants and their beneficiaries. The Board of Trustees is not liable to participating employees for the diminution or loss of participants' deferred amounts or investment income.

The state also administers the TexaSaver 401(k) plan. The assets of this plan do not belong to the state and the state has no liability related to this plan.

NOTE 11: POST EMPLOYMENT HEALTH CARE AND LIFE INSURANCE BENEFITS

Not applicable.

NOTE 12: INTERFUND ACTIVITIES AND TRANSACTIONS

Individual balances and activity at August 31, 2023, follows:

	Transfers In	Transfers Out	Purpose (Disclosure Required)
General Fund (01)			
D23 Fund 2011, D24 GAAP Fund 1011		\$5,466,060.00	SDSI Local Fund

TEXAS BOARD OF PROFESSIONAL ENGINEERS AND LAND SURVERYORS (460)

ADDENDUM

STATUTORY AUTHORITY

The Board was created in 1937 by the Forty-Fifth Legislature to administer the provisions of the Texas Engineering Practice Act (V.T.C.S., Article 3271a). The Act has been recodified as Texas Occupations Code, Title 6, Chapter 1001.

The passage of Senate Bill 1438, 76th Legislature, authorized the Board and two other state agencies with exemplary performance to participate in the Self-Directed Semi-Independent (SDSI) Agency Project Act. Originally implemented for a two-year period, the SDSI status of the agency has been fully reviewed through the Sunset Process, adopted, and extended until the next Sunset Review of the agency in 2025. With the passage of House Bill 1685, 83rd Legislature (Regular Session), the requirements applicable to SDSI agencies now exist in Government Code Chapter 472. We have identified fiscal responsibility and quality service as our top priorities under the SDSI status. This approach establishes that the agency will be successfully run by a strong focus on responsive services, fiscal responsibility, and efficient operations in the achievement of the agency's mission objectives and financial commitments. The Board has also utilized this opportunity to "think outside the box" — we are leveraging technology and pursuing innovative improvements, such as a paperless enforcement case management system, online license applications and customer communications, and online ethics and licensing webinars to provide more efficient and effective service to the public. The Board believes the SDSI program is an innovative idea in state government management, allowing for accountability, transparency, and fiscal responsibility while providing flexibility and agility in agency operations to efficiently prioritize and optimize state resources.

AGENCY MISSION

Our mission is to protect the health, safety, and welfare of the people of Texas through the licensure and registration of qualified individuals as professional engineers and land surveyors, compliance with applicable laws and rules, and education about engineering and land surveying.

ADDITIONAL INFORMATION

The practice of engineering and surveying are critical to the protection of the health, safety, property, and welfare of the citizens of the state of Texas. The Texas Board of Professional Engineers and Land Surveyors (TBPELS) achieves this mission through the effective and efficient licensure and registration of Professional Engineers (PE) and Registered Professional Land Surveyors (RPLS), the enforcement of the Texas Engineering Practice Act and the Professional Land Surveying Practices Act, and through outreach and communication to the regulated community and the public.

The agency is accountable to the public and the regulated engineering and surveying communities through the effective and efficient use of resources, and through our innovative and continuous improvement mindset which helps us optimize processes and procedures, minimize costs and eliminate redundancy, and streamline processes and regulations while still ensuring competent and ethical practice. TBPELS actively monitors a wide variety of performance measures related to our operations and continuously strives for exemplary service, clarity, and ease of use in all our customer interactions.

Budget Structure

TBPELS is a Self-Directed Semi-Independent (SDSI) agency. The SDSI program was originally a pilot project started in 1999 by Governor George W. Bush and implemented by the legislature to look for more efficient and effective ways for state agencies to operate and improve service delivery while reducing appropriations from state general revenue. Being SDSI, the agency is self-funded through fees collected and does not receive any funding through general appropriations. The SDSI program was reconfirmed after a successful Sunset review in 2013 with the passage of House Bill 1685.

Since the pilot project began, the agency has been fiscally conservative and responsible and has developed internal policies to maintain a stable balance of revenues and expenditures. Agency finances are closely monitored by the Board, including the Board Treasurer along with the agency Executive Director and Chief Financial Officer providing guidance and control of agency budget practices. A fund balance policy has been established by the Board to determine when expenditure and revenue adjustments may be necessary to maintain a reasonable and responsible account balance. This policy has been very effective and has been shared as a model for other SDSI agencies.

Through efficient use of resources and conservative spending control, the agency has been able to improve services and handle an increase in workload with only minimal changes to staffing and with minimal fee changes. Using a continuous budget process instead of a biennial appropriation cycle, TBPELS is able to actively monitor and control spending and explore best practices that must account for performance and productivity using business modeling and recognized quality systems such as the Baldrige Excellence Criteria and continuous process improvement concepts. The Board's budgeting process and controls have been reviewed through SAO and Comptroller audits with no significant findings.

Statistical Analysis of Complaints

As required by §1001.254(b), the Texas Board of Professional Engineers and Land Surveyors submits the following statistical analysis of complaints filed with the Board during the preceding year. The statistics indicated below are for the reporting period of Fiscal Year 2023: September 1, 2022, through August 31, 2023. As the merged Board was created on September 1, 2019, complaint data for each profession is being reported separately.

 Number of Engineering complaints filed: <u>537</u> Number of Surveying complaints filed: <u>45</u> 2. Categorization of complaints filed according to the basis of the complaint and the number of

complaints in each category:

Type	Category	Number of Engineering Cases Opened	Number of Surveying Cases Opened
Α	Applicant Matter	0	0
В	Unlicensed Practice	45	11
С	Illegal Use-Seal or Certificate	0	0
D	Inquiries Involving Licensees or Registrants	93	29
Е	Illegal Use-Engineering Title or Term	5	NA ¹
F	Corporate Name Inquiry	374	0
G	Neglect by Public Official	1	0
Н	Miscellaneous Inquiry	0	0
ı	Inquiry	6	1
Р	Preliminary Complaint Reviews	13	4
S	Surveying ²	0	0
N	Non-Jurisdictional	0	0
Z	Failures	0	0

- 3. Number of Engineering complaints filed by Board staff: <u>27</u> Number of Surveying complaints filed by Board staff: <u>1</u>
- 4. Number of Engineering complaints filed by persons other than Board staff: <u>510</u> Number of Surveying complaints filed by persons other than Board staff: <u>44</u>
- 5. Average length of time required to resolve an engineering complaint: <u>156 days</u> Average length of time required to resolve a surveying complaint: <u>386 days</u>³

Number of complaints resolved and the manner in which they were resolved:

	Engineering	Surveying
Resolved Cases (6)	597	55
Voluntary Compliance (6)	312	4
Dismissed – insufficient	68	22
evidence for violation or non-		
jurisdictional (6a)		
These cases were dismissed		
for insufficient evidence to		
indicate a violation or were not		
under the agency's jurisdiction		
Violation Terminated / No	196	12
Disciplinary Action(6b)		
Disciplinary Action (6c)	21	17

¹ The Texas Engineering Practice Act (Texas Occupations Code, Chapter 1001) limits the use of the term "engineering" in business names to only those companies which employ a professional engineer and offer engineering services to the public. There are not similar protections to the term "surveying" found in the Texas Land Surveying Practices Act (Texas Occupations Code, Chapter 1071).

² The S category of complaints was created to incorporate surveying cases closed by the Texas Board of Professional Land Surveying prior to the merged Board in 2019 into existing databases. No new cases are opened as this category.

³ Average processing time for surveying complaints includes the time that some cases were pending with the Texas Board of Professional Land Surveying prior to the merger of the Boards on September 1, 2019.

The following table shows the distribution of the actions taken by how they were imposed. Consent orders result from the respondent accepting the action proposed by Board staff to resolve the complaint. Agreed Board Orders result from an informal conference, in which the complaint is discussed with a Board member and Board staff. Defaults and Final Orders result from formal hearings at the State Office of Administrative Hearings.

Number of Cases Closed By:											
Action Taken	Consent Order		Agreed Board Order		Default		Final Order				
	Eng	Surv	Eng	Surv	Eng	Surv	Eng	Surv			
Notice to Cease & Desist	2	1	2	1	0	0	0	0			
Informal Reprimand ⁴	3	NA	0	NA	0	0	0	0			
Formal Reprimand ⁴	3	NA	2	NA	0	0	0	0			
Reprimand (RPLS only) ⁴	NA	6	NA	3	0	0	0	0			
Probated Suspension	5	3	3	2	0	0	0	0			
Suspension	0	0	0	0	0	0	0	0			
Refuse to Renew License	0	0	0	0	0	0	0	0			
Restitution	0	0	0	1	0	0	0	0			
Revocation	0	0	0	0	0	0	0	0			
Ethics Course	4	2	4	0	0	0	0	0			
Administrative Penalty	9	8	5	5	0	0	0	0			
Other	0	0	0	0	0	0	0	0			

7. Number of Engineering complaints filed that were unresolved (remain open) is: <u>165</u> Number of Surveying complaints filed that were unresolved (remain open) is: <u>48</u>

The number of those Engineering complaints filed by Board staff is: <u>16</u> The number of those Surveying complaints filed by Board staff is: <u>1</u>

The number of those Engineering complaints filed by persons other than Board staff is: 149
The number of those Surveying complaints filed by persons other than Board staff is: 47

The average length of time the Engineering unresolved complaints have been on file is: **218 days**The average length of time the Surveying unresolved complaints have been on file is: **506 days**

⁴ Chapter 1001 of the Texas Occupations Code allows the Board to assess an informal or formal reprimand for violations of the Texas Engineering Practice Act or Board Rules while Chapter 1071 of the Texas Occupations Code only allows the Board to assess a reprimand for violations of the Professional Land Surveying Practices Act or Board Rules.
