Re: TBPE Resolution Regarding Joint Advisory Committee on the Practice of Engineering and Architecture

During the February 25, 2010, Texas Board of Professional Engineers Board (TBPE) meeting, the Board discussed the continued effort to resolve issues that result from the overlap between activities that constitute the practice of engineering and those that constitute the practice of architecture through the Joint Advisory Committee (JAC) and the subcommittee of the JAC (Sub-JAC). After further discussion and consultation with legal counsel, the Board made the following resolution:

The TBPE reaffirms its commitment to continue working with the JAC, through the Sub-JAC, to develop a process to manage jurisdictional conflicts. The TBPE requests that the Sub-JAC develop a proposed process and present it to the JAC for consideration.

The TBPE wishes to continue to work on this issue with the Texas Board of Architectural Examiners and requests a JAC meeting be scheduled at the earliest possible convenience.
